

Cai de Vis

THE ESTATE

Cai de Vis is more than a Moldavian estate, where people can spend quality time, enjoy nature and riding beautiful horses. It's a small family business, run with a lot of passion and love.

Cai de Vis prides itself on being a special place, where it's all about the experience, how you feel while spending your time there. It does so by offering special treats to its clients.

NON created an unique and beautiful rebranding, with a visual language appropriate for what CDV really means. Using the three letters, C, D and V, the new logo represents a powerful symbol for tradition and how it reflects the place's personality. We've rebuilt a new and as always charming CDV.

The new look-and-feel is more aligned to what CDV stands for, people, friends, and tourists as well. The monogram illustrates how well-balanced and authentic is CDV and the fact

that, at the same time, everything remains the same: the people, the beautiful landscapes, the delicious food, the stories that never end.
